Spill at 5744 State Highway 29, Town of Eaton, Brown County
SERTS ID #: 20160628NE05-1

On 6/28/16, around 5:30pm, Pagels Ponderosa had a semi manure tanker hauling approximately 6000 gallons of liquid manure from pit 4 overturn after making a left hand turn into a field access driveway off of Hwy 29. Most of the contents spilled onto the lawn and into the road ditch, and a few hundred gallons stayed in tank. A tractor w/loader was used to make earthen dam in the road ditch to contain manure. A vac truck was called to suck manure up. We used shovels to hand dig a small sump before dam to suck from. A tow truck was used to right tanker. Approximately 8000 gallons of water was used to flush manure in small amounts to sump and collected by vac truck and land spread on field N-11. Clean up was finished by 9:00pm. The next morning the dam was removed and sump filled in and straw was spread over loose dirt.
